Faro

Elev: 0 ft	36°57'37"**N** 7°49'23"**W**

Radial **100**, **7NM** from **VFA**, **112.800** (FARO)

VHF/AM	VHF/FM
(FIS) **LISBOA MIL**: 131.055 MHz **FARO APP**: 119.405 MHz **FAROTWR**: 120.755 MHz (PROCIV) **CDOS**: 129.805 MHz	Maritime Authority: **Polimar** Channel 11 (156.550 MHz) Firemen: **OPAR** Channel 4 (152.625 MHz)

Good scooping area.
Usable in multiple places and directions.
Watch out for small vessel traffic.

Predominant Wind from the **N** quadrant.

With low wind conditions, the usual scooping run direction is parallel to the swell.
With higher winds, it's fairly unprotected, and swell can be a problem.

Best scooping spots are inside the Faro/Olhão inlet, but unfortunately, not allowed by the maritime authority at this time.
