

CLASS A

Caniçada 2 25A

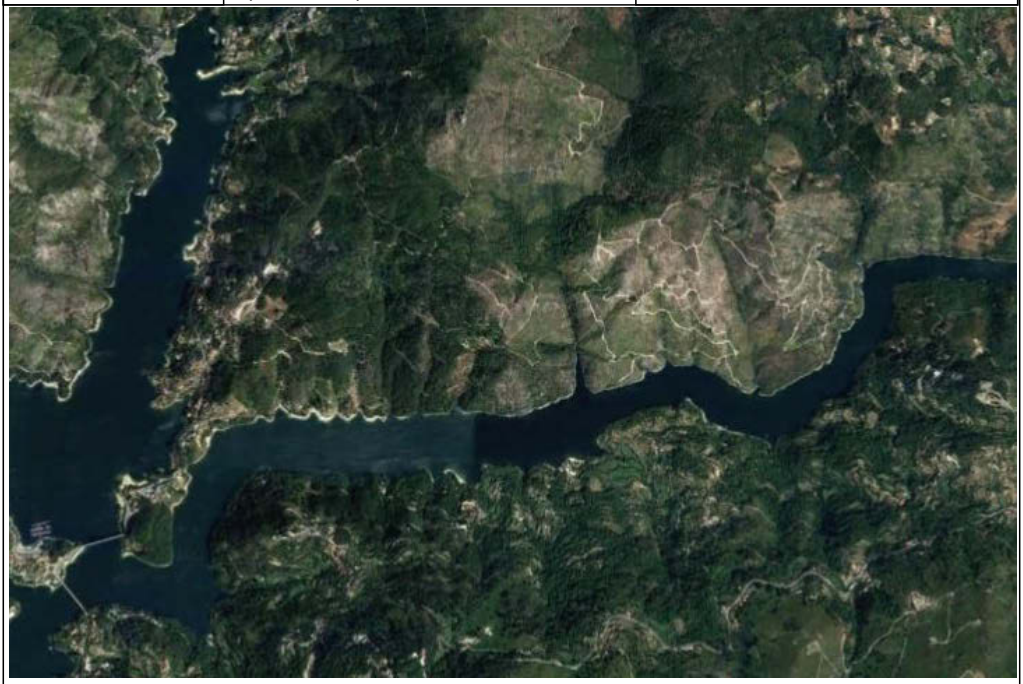

Vieira do Minho
Braga

Elev: 480 ft | 41°40'52"**N** 8°09'20"**W**

Radial **047**, **34NM** from **PRT**, **114.100** (PORTO)

VHF/AM
(FIS) **LISBOA MIL**: 130.905 MHz
PORTO APP: 120.910 MHz
BRAGA RADIO: 122.005 MHz
(PROCIV) **CDOS**: 124.955 MHz

VHF/FM
Firemen: **COPAR**
Channel 4 (152.625 MHz)

The **N** basin is not normally used by the CL215, due to the deep valleys and heavy traffic.
Be prepared for steep approaches.

When scooping **W** to **E**, beware of high tension lines in the approach path, over Rio Caldo, to the **W**. Be prepared for a steep climb out.

Beware of a medium tension line when exiting to the **S**, after the bridges.
Beware of high tension lines over the dam wall when climbing out to the **SW**.
Due to the high elevations around it, the whole area can become quite turbulent in windy days.
Watch out for traffic and all types of water sports and activity.

Winds are mostly variable, but predominate from the **E.**

Vieira do Minho
Braga

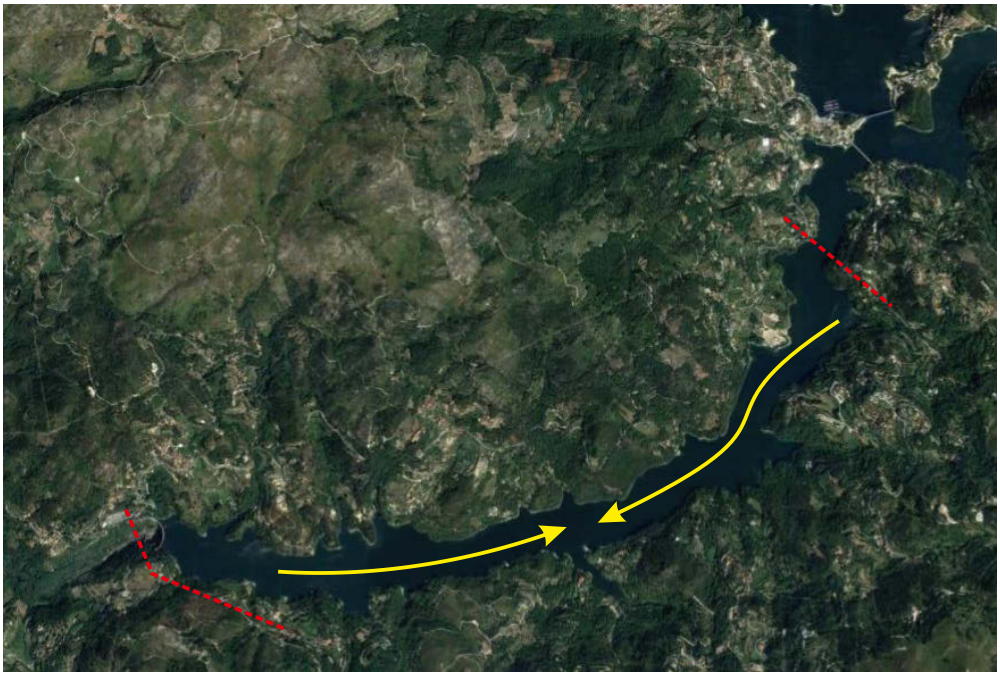

25

Elev: 480 ft | 41°40'00"**N** 8°11'00"**W**

Radial **046**, **32NM** from **PRT**, **114.100** (PORTO)

VHF/AM
(FIS) **LISBOA MIL**: 130.905 MHz
PORTO APP: 120.910 MHz
BRAGA RADIO: 122.005 MHz
(PROCIV) **CDOS**: 124.955 MHz

VHF/FM
Firemen: **COPAR**
Channel 4 (152.625 MHz)

The South basin is adequate for curved path runs in both directions. Be prepared for steep approaches.

Beware of high tension lines over the dam wall when approaching from the **W**.
When scooping **W** to **E**, exit to the **N**, reversing course over Rio Caldo and Ponte, in the nothern basin.
Beware of a medium tension line when approaching from the **E**.
Beware of high tension lines over the dam wall when climbing out to the **W**.

Due to the high elevations around it, the whole area can become quite turbulent in windy days.

Watch out for traffic and all types of water sports and activity. Be on the alert for swimmers.

Winds are mostly variable, but predominate from the **E.**
