Steep approach, descending the Bestança river valley, over a great number of powerlines, some of which are not marked.
Long descent is hard on piston engines.
Exit with a left turn towards the Carrapatelo Dam wall
Narrow, deep valley, with steep banks and no beaching spots.
There are a few small piers **SE**, close to the bridge and on the **N** bank
Seldom used, because there's usually a tailwind.

Some debris in the water.
Beware of river traffic.
Prevailing wind is from **E**.
